The **Hirschmann™** BAT Operating System

1. Preface

This area contains current HiLCOS operating system versions and information about your BAT device.

If you like to update your device, please install the current LANtools-version first. **Prior to the firmware-upload, back up the access point configuration file.** After that, you start LANconfig and with the button "Firmware-Upload", you load the new HiLCOS-version into your device.

The **Hirschmann™** BAT Operating System

2. Supported Devices

You need the following files for these devices:

| File | Device | Comment |
|---------------------------------|---|------------------------------|
| HiLCOS-BAT-9.13.5500-REL.upx | OpenBAT-R OpenBAT-F BAT450-F BATOne-Wireless | Firmware for BAT |
